SECTION I

WHO WE ARE & OUR SYSTEM

ABOUT US

We are a national club that focuses on the holistic development of players.

Our mission is to provide the best resources possible for our players, coaches, and parents. We do this by creating online tools which help with their development, promotion, and communication. We believe there are great coaches who can develop players at an extraordinary rate. Providing them tools to streamline their team gives them a more professional approach.

Our players expect to be challenged, resulting in growth from being outside of their comfort zone in a positive, supportive, and organized environment. Our players are encouraged to be accountable, play the game hard, and have a learning mindset, leading them to succeed on and off the field.

We strive to mentor players in the pursuit of achieving their dreams and growing the game.

- Rawlings Tigers

OUR CORE VALUES

Our club core values drive our purpose, connect our culture, and provide meaning to growing the game. As an organization, these are the standards we have set for ourselves to help provide an exceptional experience.

1. "We Build Relationships"

It takes one interaction to make a difference. A fundamental principle of being fully present in every conversation, text message, and email will help foster a culture where people can build skills and grow into the best versions of themselves. We strive to grow relationships within our team and the organization. These are the experiences and friendships that can last forever.

2. "We Compete at Everything"

We crave the next opportunity to prove our abilities. The best lessons are learned through battle. The ability to see an objective, understand the problem, and solving it is a skill we foster. We welcome competition. We always compete: in games, in life, at school, at work. Strive to be the best version of ourselves.

3. "We Create the Standard"

The opportunity to grow the game is a singular focus. By forging our own path, we are creating our own bar and are raising it every day. We look to set the highest standard for club sports.

4. "We Embrace Opportunities"

Being observant with our eyes, ears, and minds to new ideas is a challenge we embrace. We have the ability to take action on opportunities when they present themselves. We're always seeking to learn.

5. "We Keep our Eyes Level"

Emotions are the fabric of who we are as people, but we understand there is a bigger picture. We don't let our emotions get in the way of accomplishing our mission. We keep a steady mindset with our objective in mind: educate, train, and grow the game.

6. "We Have Humble Confidence"

We stay humble in our success, and confident during adversity. We maintain a strong pride in our abilities but understand we don't have all the answers. There is an opportunity to learn from people and experiences. We seek to always be finding the right tools, methods, and ideas to make us better people. It's a long journey, stay proud.

7. "We Play It Forward"

We have a responsibility to respect and advance the game by giving back to others through teaching, mentoring, and leading. We look to build the community and be a steward of the game to helping it grow.

8. "We Sweep the Dugout"

Leadership starts with action, it is the ability to take initiative. Taking on the hard work with no reward is the essence of sweeping the dugout after a game. It's being selfless and taking pride in your game, your space, and your teammates.

9. "We Win the Next Pitch"

We draw from our past experiences to strengthen the next one. Regardless of the result, there are lessons to be learned. We take these new lessons into the next opportunity.

We look forward to the next challenge.
