## 9U Evans Team Information

Our team is rooted in teaching and embracing all aspects of the game. We believe that a fun, yet fast paced and hard-working environment produces good results on and off the field. We value and happily work with multi-sport athletes as part of their full development at these young ages. With an emphasis on fundamentals and repetition, we are confident in our path to developing strong minds, bodies, and love for the game. We instruct and encourage a full team atmosphere, from the coaches to the players, and down to the parents. We like to win, but we love to teach and see development!
