

1. Open Firefox Browser
2. Click "Selenium IDE" extension icon 
3. Once open, click "Open an existing project" link
4. Select the .side file you downloaded and click Open button
5. Make sure the "Open Site" test is selected in the left pane and click the second play icon ▶
  - a. This will open a new firefox browser. If it does not load the DraftKings site, close this new window and try again
  - b. Once the site is loaded in new browser....select your Sport, Game Style, Slate, Type, Details options
  - c. Then click the "Add Friends" button
6. Once on the screen where you can select friends go back to the Selenium window
7. Click "Username Entry" test in the left pane
8. Select the first command "set speed"
9. Right click this command and select "Play from here"
